Personalized Settings MDX

The **2009 MDX** is available in five packages:
MDX Base Model
MDX Technology Package
MDX Technology & Entertainment Package
MDX Sport Package
MDX Sport & Entertainment Package
The MDX comes with features that can be customized to your client's preferences. Set the features listed below for your client. Refer to the Owner's Manual, Quick Start Guide, and Navigation System Manual for complete information.

Note: Default factory settings for items on these two pages appear in **bold** print.

Client Name	VIN

Keyless Remote Setup

1 — Driving Position Memory System (DPMS) for Keyless Remotes

If "MEMORY POSITION LINK" in the Multi Information Display (MID) is "ON," the driver's seat, steering wheel, and outside mirrors will move to the positions stored in the memory when you open the driver's door using the remote transmitter. Preset audio/radio channels and A/C settings are also linked to the keyless remote transmitters.

- ☐ **ON** — **Driver's seat and outside mirrors move to positions linked to the remote transmitter being used**
- ☐ OFF — DPMS is off/deactivated all the time

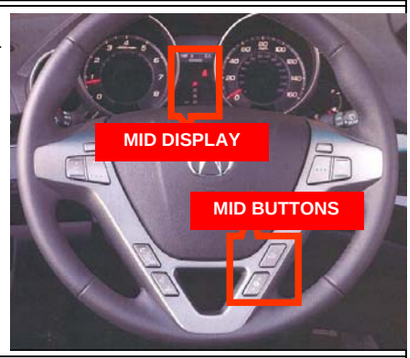
Instructions:

1. Turn the ignition switch to the ON (II) position.
2. Position the driver's seat, steering wheel, and outside mirrors to the Primary Driver's preferences.
3. Confirm that the Primary Driver will use Keyless Remote #1.
4. Store the Primary Driver's position preferences as "Position #1."
5. If a Secondary Driver is present, offer to store his or her preferences as "Position #2".
6. If a Secondary Driver is not present, advise client that you have set Keyless Remote #1 for Driver #1 and that the instructions to set the DPMS are in the Owner's Manual. Advise the client to contact you if they cannot successfully set Keyless Remote #2 settings for Driver #2.

Multi-Information Display (MID) Personalized Settings

MID — MULTI-INFORMATION DISPLAY (MID) Customization

1. Refer to the Owner's Manual **Multi Information Display** section for complete instructions.
2. Put the transmission in Park (P).
3. Turn the ignition switch to the ON (II) position.
4. Press and hold the up (▲) or down (▼) button until "Keyless Memory Settings" appears in the MID.
5. Press the SEL/RESET button to enter the "Keyless Memory Settings" mode.
6. Show the client how using the INFO buttons (▲ / ▼) on the steering wheel is the same as using a scroll bar on a computer. Use the INFO buttons (▲ / ▼) to scroll through the settings until you find the setting you wish to change.
7. Show the client how pressing the SEL/RESET button on the steering wheel is the same as pressing "Enter" on a computer. When you find the setting you want, press the SEL/RESET button to enter your choice into the system.
8. Show the client how to change one of the settings in the MID. Then confirm that the client can change one of the settings while you watch.



2 — Language Selection (In the METER SETUP Group)

Select the language used in the Multi-Information Display (MID).

☐ **ENGLISH** ☐ SPANISH ☐ FRENCH

3 — Interior Light Dimming Time (In the LIGHTING SETUP Group)

Select how long the vehicle interior lights will remain on after closing the doors and tailgate.

☐ 15 seconds ☐ **30 seconds** ☐ 60 seconds

4 — Headlight Auto-Off Timer (In the LIGHTING SETUP Group)

Select how long the exterior lights will stay on after you close the driver's door.

☐ 0 seconds ☐ **15 SECONDS** ☐ 30 seconds ☐ 60 seconds

5 — Auto Door Lock (In the DOOR/WINDOW SETUP Group)

Select when the doors will automatically lock.

- ☐ SHIFT FROM "P" — Doors lock when shift lever is moved out of Park (P)
- ☐ **WITH VEHICLE SPEED** — **DOORS LOCK WHEN VEHICLE SPEED REACHES 10 mph (approximately)**
- ☐ OFF — Auto door lock function is off/deactivated all the time

6 — Auto Door Unlock (In the DOOR/WINDOW SETUP Group)

Select when the doors will automatically unlock.

- ☐ **SHIFT TO "P" DRIVER'S DOOR UNLOCKS WHEN SHIFT LEVER IS MOVED INTO PARK (P)**
- ☐ SHIFT TO "P" ALL DOORS — All doors unlock when shift lever is moved into PARK (P)
- ☐ IGN OFF DRIVER'S DOOR — Driver's door unlocks when ignition is turned to LOCK (0)
- ☐ IGN OFF ALL DOORS — All doors unlock when ignition is turned to LOCK (0)
- ☐ OFF/DEACTIVATED — Auto door unlock function is off/deactivated all the time

7 — Key and Remote Unlock Mode (In the DOOR/WINDOW SETUP Group)

Select which doors will unlock when you press the remote transmitter "unlock" button once.

- ☐ **DRIVER'S DOOR** — **ONLY DRIVER'S DOOR UNLOCKS**
- ☐ ALL DOORS — All doors unlock

8 — Keyless Lock Acknowledgment (In the DOOR/WINDOW SETUP Group)

The exterior lights will flash each time you press the LOCK or UNLOCK button. A beep will also sound when you press the LOCK button twice.

☐ **ON / ENABLED** ☐ OFF / Disabled

9 — Windshield Wiper Action (In the WIPER SETUP Group)

Changes the wiper operation between two settings when the wiper switch is in the INT position.

- ☐ INTERMITTENT — The intermittent operation varies according to the selection you make on the wiper lever's intermittent control ring
- ☐ **WITH VEHICLE SPEED** — **THE INTERMITTENT OPERATION VARIES ACCORDING TO VEHICLE SPEED**

10 — Security Relock Timer (In the DOOR/WINDOW SETUP Group)

Select how long it takes for the doors to relock and the security system to set after you unlock but do not open the door.

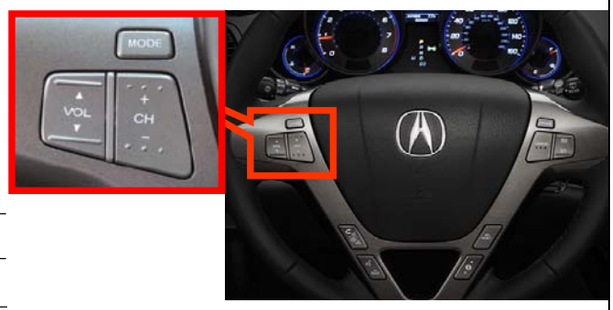
☐ **30 SECONDS** ☐ 60 SECONDS ☐ 90 SECONDS

Other Personalized Settings

11 Radio Presets

Store up to 6 AM and 12 FM radio stations, and 12 XM® Satellite Radio channels in the preset (1-6) buttons.

NOTE: Functions that rely on a satellite signal, such as XM Satellite Radio, will not operate in Alaska or Hawaii



To store a station:

1 Use the tune, seek, or scan function to tune the radio to a desired station.
2 Pick a preset number button (1-6).
3 Push and hold it until you hear a beep.
Show the client how to use the control buttons on the steering wheel.

AM	_____	_____	_____	_____	_____	_____
FM1	_____	_____	_____	_____	_____	_____
FM2	_____	_____	_____	_____	_____	_____
XM1	_____	_____	_____	_____	_____	_____
XM2	_____	_____	_____	_____	_____	_____

12 Navigation System - Home Address

(for MDX vehicles equipped with Navigation System)

NOTE: The navigation system will not operate in Alaska.

1 Instruct your client on how to enter a destination address.
2 Help your client set up the "Go Home" (client address) feature in the system.
3 Not all addresses will be in the database. When demonstrating the "Go Home" calculation, be sure to advise the client of the optional routing methods available. If the client's home address is not in the system, be sure to explain that the area MAY be included in the next update.
4 Explain voice activation and have your client try several commands.
5 Show the location of the microphone and explain the importance of speaking in a normal tone of voice.
6 Show the client the location of the NAVI ***TALK*** button on the steering wheel.
7 Show the client the location of the NAVI ***BACK*** button on the steering wheel.
8 Show the client the Navigation Manual to be used as a reference guide.
9 Show the client the commonly used voice commands in the Navigation Manual.

13 Rearview Camera

(for MDX vehicles equipped with navigation system)

When the vehicle is shifted into reverse with the ignition switch on, the area directly behind the vehicle is shown on the navigation screen.

Brightness Adjustment - When in reverse, show the client how to adjust the brightness using the interface dial.

14 Bluetooth® HandsFreeLink® *(HFL)*

NOTE: To use Bluetooth HandsFreeLink, the phone must have approved Bluetooth capability, along with the hands-free profile.

To confirm that the client's cell phone is compatible with Bluetooth HandsFreeLink - AND - to view/confirm phone pairing information:

1 Go to www.acura.com/handsfreelink, or call **Bluetooth HandsFreeLink client support at (888) 528-7876. Then:**
2 **Pair** the client's phone.
- Get pairing instructions from www.acura.com/handsfreelink.
- Then go to the vehicle and pair the phone according to the instructions.
3 **Reconfirm phone linkage** To reconfirm phone linkage, do the following:
- Turn off the phone.
- Turn off the engine.
- Turn the phone on again.
- Restart the vehicle.
4 Show the client the location of the HFL **TALK** button on the steering wheel.
5 Show the client the location of the HFL **BACK** button on the steering wheel.

Note: It is important to remember that you must press and release the HFL TALK Button on the steering wheel and wait for the beep before you speak. This step is required before all spoken commands.

6 Confirm that the client can successfully place a test call.
NOTE: Command to place a call must begin with "Call" or "Dial," followed by the telephone number.
- To improve the client's experience with the system, advise them to:
* Avoid using select text, such as "Home" or names with one syllable, when storing names in the phonebook. (Example: Instead of "Pete," say "Peter.")
* Stress the importance of speaking in a normal tone of voice. (Do not raise voice when frustrated as it decreases system recognition).
7 Show the client where to find the index of voice commands in the Navigation Manual.
8 Encourage the client to use "System Help" when they need help.
9 Confirm that the client can successfully receive a test call.
10 Make sure to place a follow-up call to the client as soon as they leave the dealership.

15 AcuraLink™

Provides direct communication between the vehicle and the Acura server. It works through XM® Satellite Radio and in conjunction with the vehicle's navigation, Bluetooth HandsFreeLink, and audio systems to send and receive several messages.

AcuraLink comes ONLY in MDX vehicles equipped with Technology and Sport Packages. (It is not available in Alaska and Hawaii.)

1 Ask the client if his or her cell phone has modem capability (also known as BluetoothDial-Up Network Profile).
NOTE: Modem capability is not usually provided in a basic contract. Cell phone providers may charge extra for that option.
2 **If the client's cell phone does not have modem capability, disregard this section.**
3 If the client's cell phone does have modem capability, confirm that the phone has already been paired.
4 With the client present, go to the Owner Link Web site at www.myacura.com.
